Sub–Assigning a software development project /Internship in your organization.

Dear Sir/Madam,

The Maharaja Sayajirao University of Baroda is one of the famous centers of education in India. The University Offers, a three-year degree programme leading to the 'Bachelor of Computer Applications' degree. The course is designed with the objective that a graduate of this course should be directly useful to the society and organization like yours at large. To achieve this goal we continuously update our syllabus, invite experts from the field to provide training and do all those activities necessary for the excellence in imparting during sixth semester by associating himself/herself with an organization. The experience obtained by the student during this training is invaluable for his/her future growth.

Sir/madam, we cannot be successful in our endeavor without active support of the industry. We, Therefor. Solicit your assistance, and request you to provide project / internship placement for some of our student in your organization. The project / Internship to work on. Looking forward for your support and thanking you.

Our student who is in 6th semester BCA wishes to undertake a project / internship of minimum 3-4 Months Duration in your organization. We would appreciate if he/she is assigned a live project / Internship to work on.

Looking forward for your support and thanking you.

Yours Faithfully.

(Prof.P.K.Mehta)
